

PROPOSAL 125

5 AAC 85.045. Hunting seasons and bag limits for moose.

Establish a fall archery hunt for moose in Unit 15C to align with Units 15A and 15B as follows:

Add a taking one bull with spike-fork, three brow tines and 50-inch antlers between Aug. 22 – Aug. 29 in Unit 15C.

What is the issue you would like the board to address and why? Unit 15C currently has no archery season for moose. I request that the Board of Game add an archery season that aligns with the seasons already in place in Units 15A and 15B. These subunits hold less moose than Unit 15C and would help spread out the harvest over the entire unit instead of the areas with higher predator populations and less moose.
