

PROPOSAL 139

5 AAC 85.020. Hunting seasons and bag limits for brown bear.

Extend the brown bear season for the RB300 hunt in Units 7 and 15 to June 15 as follows:

All of Units 7 and 15, where hunting is legal:

One brown bear, every regulatory year by permit Sept 1- **June 15** [May 31]

What is the issue you would like the board to address and why? There seems to be a very stable brown bear population in units 7 and 15 and the opportunity to pursue them after May 31 should not have a negative impact. This area is already a registration hunt so ADF&G could close it early if too many bears were being taken. A few more bears taken would surely help the moose population as well.
