

PROPOSAL 85

5 AAC 85.040. Hunting seasons and bag limits for goat.

Create an archery only drawing hunt for goat in Unit 14C, within the drainage of the West Fork of Eklutna River as follows:

Bow only draw tag for goats:

Hunt Area: Unit 14C, West Eklutna, within the drainage of the West Fork of the Eklutna River.

Bowhunters: must be IBEP (International Bowhunters Education Program) certified prior to hunting in DGXXX. Call ADF&G for more information.

Season Dates Sept. 1-Oct. 15.

Taking of a nanny accompanied by a kid is prohibited.

HUNTERS SHOULD TRY TO TAKE MALE GOATS

What is the issue you would like the board to address and why? In my time spent in the West Fork of the Eklutna River, I have observed a population of goats within the West Fork of the Eklutna River. This area is adjacent to DG852, so ADF&G biologists would have to advise on tag allotment. There are not many goat only bow opportunities in Alaska that I am aware of. I would like a bow only tag in this area.
