

Board Members,

Please clarify intent on what is currently allowed under small game hunting regulations.

After watching live the discussion on proposal 57, I am yet confused on what the Board and Department considers to be legal when it comes to using dogs to retrieving dead or wounded "FUR ANIMALS" under small game "HUNTING" regulations. I heard it said that it was already legal, that it might not be, that it wasn't, so what is it? The Department really added to the confusion by mistakenly saying that it was a trapping regulations proposal and by going back and forth on what is legal and what's not.

Please reconsider proposal 57 or at least go on the record so that myself and many others know what is currently legal and what is not.

Respectfully,

Mike Harris
