

**PROPOSAL 48**

**5 AAC 92.121. Intensive Management Plans V.**

Modify the intensive management plan for Unit 13 to include Nelchina caribou as follows:

Modify the existing intensive management plan, or create a new intensive management plan to add the Nelchina caribou herd populations; to include cow/calf ratios, population objectives.

We expect the Department of Fish and Game to take into consideration both caribou and moose populations when creating the intensive management plan.

**What is the issue you would like the board to address and why?** There is not a trigger to implement intensive management to address the declining Nelchina caribou population.

**Did you develop your proposal in coordination with others, or with your local fish and game advisory committee?** Yes, with the public at our local advisory committee.
